

SUSD Community Math Study Group

Objectives of the Community Math Study Group

- Become informed by research-based, effective mathematics education practices
- Weigh the benefits of curriculum compacting vs. curriculum “skipping”
- Analyze data on SUSD student success indicators relative to math course placement from elementary to middle school to high school
- Study math course placement best practices of similar school districts
- Gain awareness of various family and cultural goals for mathematics education and consider possible ways to be responsive
- Given the above objectives, reach consensus on recommendations to the superintendent, who will subsequently advise the Board of Trustees of the study group’s outcomes

February 12, 2018 3:30-6:30 PM

Time	Agenda	Lead
3:30	Welcome/Review of Objectives and Agreements	Manny Barbara
3:35	Recommendation Formulation	Manny Barbara
6:20	Process Check	Manny Barbara
6:25	Next Steps	Manny Barbara
